

Neways Electronics rides the IoT wave

Son, 26.06.2018: The EMS lifecycle partner Neways Electronics International is participating in two major European projects in the field of Internet of Things (IoT), the so-called INTER-IoT project and the IoF2020 project. Neways Electronics already started its dedication in the IoT-field in 2016 to acquire a strong knowledge which ensures a qualified support of its customers in their IoT-projects.

The INTER-IoT project is concentrating on the interoperability among different IoT-platforms. Neways Electronics participated within this EU project to develop, implement and test in practice an open source framework with associated methodology and tools to enable the interoperability of heterogeneous IoT platforms. The EMS service provider contributed across the full breadth of the project, with a focus on the implementation and integration. Pilots have been rolled out to optimize the logistic, safety and lighting infrastructure within the port of Valencia.

The IoF2020 project explores the potential of IoT-technologies for the European food and farming industry. Neways Electronics connected smart weeding machines to the internet in order that organic farmers get detailed information on weed pressure per individual plant to optimize their weeding cycle.

About Neways Electronics International N.V.: Neways Electronics International N.V. (Neways) is an international company active in the EMS (Electronic Manufacturing Services) market. Neways offers its clients custom-made solutions for the complete product life cycle (from product development to after-sales service) of both electronic components and complete (box-built) electronic control systems. Neways operates in a niche of the EMS market and focuses primarily on small to medium-sized specialist series, in which quality, flexibility and time-to-market play a crucial role. Neways products are used in sectors such as the semiconductor, medical, automotive, general industry and defence industries. Neways has operating companies in the Netherlands, Germany, the Czech Republic, Slovakia and China, with a total of 2,792 employees at year-end 2017. Neways recorded net turnover of € 438.7 million in 2017. Neways shares are listed on the Euronext Amsterdam stock exchange (symbol: NEWAY).
