

## Remuneration Report 2020

This Remuneration Report provides an overview of the application of the Remuneration Policy and the components of the remuneration of the Board of Directors and the Supervisory Board during 2020. This Remuneration Report is drafted in accordance with article 2:135b of the Dutch Civil Code and the Dutch Corporate Governance Code.

The Company has successfully attracted and retained executives who are capable of leading and overseeing the Company at all levels and the Remuneration Policy is designed to facilitate this process. The Supervisory Board oversees all remuneration decisions and determines the criteria to measure the performance of the Board of Directors whereby considering the roles and responsibilities. For determining the remuneration of the Board of Directors, the Supervisory Board is informed about the remuneration of the direct reports to the Board of Directors including the Short-Term and Long-Term Incentive Plans applicable which are fully aligned with the performance conditions as operated under the Remuneration Policy.

As we believe that all employees are integral to our success, we are committed to fair and responsible remuneration. We therefore consider remuneration of the members of the Board of Directors and the Supervisory Board in the light of the remuneration of all employees, including associated pay ratios. Our Remuneration Policy is designed to reflect our commitment to paying fairly, responsibly and transparently. The Supervisory Board undertakes to engage actively with shareholders in order to address all legitimate and reasonable objections and concerns. We invite our shareholders to engage with us regarding our policy and reporting. In implementing the Remuneration Policy, the Supervisory Board analyzes the possible outcomes of its variable remuneration elements and how they may affect the total remuneration of the Board of Directors. In this respect, regular scenario analyses are undertaken whereby the development of the underlying share price of the Company's shares is considered. This with due regard for the risks to which variable remuneration may expose the Company. Variable remuneration shall be linked to predetermined, assessable and influenceable targets which are predominantly of a long-term and sustainable nature and linked to the strategy, values, purpose and vision of the Company.

The Company aspires to ensure that the Remuneration Policy aligns with all policies and procedures and complies with relevant laws and the Dutch Corporate Governance Code by applying high standards of corporate governance, environmental and ethical practices. Sound corporate governance is a key element of the culture, behavior and management of the Company and is consistent with the core values and purpose. For this purpose, we have defined our Code of Conduct to ensure these high standards in both the workplace and in all of our business dealings. These policies as contained in our Code of Conduct that encompass human rights, health and safety, conflict minerals, anti-corruption and anti-bribery, conflict of interest, financial reporting environmental responsibility, insider trading, community initiatives and includes a whistleblower procedure. The underlying documentation of our full Code of Conduct is available on our corporate website. In determining the actual remuneration of the Board of Directors, the Supervisory Board assesses the actual performance delivered based on its strategy in line with the Code of Conduct and takes into account the impact of the overall remuneration of the Board of Directors on the pay differentials within the Company. When determining remuneration, the Supervisory Board also obtains the views of the members of the Board of Directors relating to the level and structure of remuneration.

The Remuneration Policy has been effective as from 16 April 2020 after receiving a positive advice from the works council and the approval of the Annual General Meeting of Shareholders. The Remuneration Policy continues the remuneration policy principles applied until 2020 and was updated based on the outcomes of the review of the requirements as contained in the Dutch Corporate Governance Code and the new Dutch legal requirements. In addition, the policy was extended with the remuneration principles applicable to the individual compensation of the Supervisory Board members. This Remuneration Policy will be applicable for a four-year period starting as from 1 January 2020, except in the event of material changes which will be brought to the Annual General Meeting of Shareholders for approval. The proposed adjustment of the compensation of the Supervisory Board members was withdrawn during the Annual Meeting of Shareholders. This adjustment was considered not to be appropriate due to the outbreak of the covid-19 pandemic. The proposal for the adjustment of the compensation of the Supervisory Board members will again be presented to the Annual Meeting of Shareholders on 19 April 2021.

### Developments to the composition of the Board of Directors during 2020

Effective as per 1 January 2020, Mr E. Stodel was appointed by the Supervisory Board as CEO of the Company after approval by the Extraordinary Meeting of Shareholders on 18 December 2019 and succeeded our former CEO, Mr. H.W.T. van der Vrande who stepped down as statutory director as per 1 January 2020 but remained employed by the Company. Furthermore, Mr. A.H.H. van Bragt has indicated to step down as COO and effectively terminated his services with the Company as per 31 December 2020.

### Remuneration Structure

The total remuneration package of the Board of Directors is established on an annual basis by the Supervisory Board. The remuneration structure of the Board of Directors consists of the following elements:

- Fixed compensation - Annual base salary
- Short-Term Incentive - Annual cash bonus plan

- Long-Term Incentive - Performance Share Plan
- Pension allowance
- Other Benefits

The above components are regularly compared with a balanced remuneration reference group of companies selected based on industry, labour market, size and geographical spread to determine the total remuneration package for the Board of Directors. When selecting reference companies, the size and complexity of the Company is taken into account, including market capitalisation, net revenues and total assets. The following companies are included in this remuneration reference group:

Remuneration Reference Group	
AMG Group	Lacroix
Amsterdam Commodities	Lucas Bols
BE Semiconductor Industries	Nedap
Cicor Technologies	Ordina
Euromicron. Comm.& Cntl. Tech.	Oxford Instruments
Holland Colours	Phoenix Mecano
Kendrion	Prima Industrie

### Application of the Remuneration Policy in 2020

The Remuneration Policy was successfully applied by the Supervisory Board in 2020 without exceptions as set forth below. The remuneration of the Board of Directors consists of a basic salary and an annual bonus. The Supervisory Board determines the remuneration annually, within the framework permitted by the Remuneration Policy.

The ratio of the remuneration of the members of the Board of Directors compared with the average remuneration of the other employees during 2020 is 7,8:1 (2019: 9:1). This ratio consists of the average remuneration of members of the Board of Directors recognized by the Company in 2020 of € 330,000 (2019: € 430,000) as stated in the summary of the remuneration of the members of the Board of Directors in relation to the average remuneration of all employees of the operating companies in Western Europe of € 42,600 (2019: € 42,000). This average remuneration comprises wages and salaries plus bonuses, options and performance shares of the employees in Western Europe, divided by the average number of employees in Western Europe.

#### 1. Base Salary

The base salaries are not subject to any automatic pay rises under a collective bargaining agreement. The Supervisory Board regularly considers base salary levels of the members of the Board of Directors and compares these levels to remuneration reference group as outlined in the Remuneration Policy. The 2020 base salary levels of the members of the Board of Directors are set at the following levels:

	Base Salary
E. Stodel - CEO	330.480
A.H.H. van Bragt - COO	285.840
P.H.J. de Koning - CFO	285.840

While the base salary levels of the COO and CFO have been increased effective as per 1 January 2020, in line with the increase applicable under the collective bargaining agreement. However, due to the outbreak of the covid-19 pandemic, this increase was in May 2020 with retrospective effect rolled back and adjusted. Therefore, effectively the base salary levels applicable for the COO and CFO during 2020 remained unchanged compared to 2019.

#### 2. Short-Term Incentive

Every year, the Supervisory Board determines a bonus arrangement for the reporting year. The bonus arrangement is contingent upon the realisation of a series of predetermined quantitative performance targets. The bonuses awarded are recognised during the reporting year, based on the realisation of the performance targets during the financial year, and are paid in cash after the financial statements have been adopted. The at-target short-term incentive opportunity for the Board of Directors is set at 35% of annual base salary.

Each year, the Supervisory Board sets the performance targets after approval of the budget for the next financial year. Approximately 70% of the performance targets are linked to financial objectives. The Supervisory Board may choose a maximum of three of the following or comparable objectives at the start of each financial year:

- Sales growth (e.g. identical);
- Result before Interest and Tax;
- Net Cash Flow;

- Working Capital (including quality/solvency) and;
- Operational Margin.

The remaining 30% is based on non-financial and/or personal objectives. The Supervisory Board may choose a maximum of two of the following or comparable objectives at the start of each financial year:

- Cooperation with clients – ;
- Cooperation with suppliers – ;
- Improvement of internal cooperation and systems;
- ESG objectives and;
- Unlock potential Asia & Eastern Europe – .

Threshold, target and maximum performance levels will be set for each performance objective. The achievement of threshold performance will result in 50% pay-out of the award, at-target will result in 100% pay-out of the award and maximum performance will result in 160% pay-out of the award. Linear vesting will occur between performance levels. Performance below threshold level will result in 0% pay-out.

The Supervisory Board reviewed at year end the quality of the pre-determined financial and non-financial performance and the sustainable value delivered in order to determine the vesting of the Short-Term Incentive awarded for 2020. The actual levels of the financial and non-financial performance criteria set are not disclosed since this is considered competitive sensitive information and therefore classified as highly confidential and share price sensitive information. The following table shows the summary of the short-term incentive in the reported financial year:

### 3. Long-Term Incentive

Effective as per 18 April 2017 a 'performance share plan' was implemented under which the members of the Board of Directors are eligible to receive a performance based conditional award of Company shares. Under the Company's long-term incentive plan, members of the Board of Directors shall be invited to receive a conditional award of performance shares in the Company. In this respect the at-target value of the annual award to the Board of Directors may amount to 22.5% of annual base salary in the year of the award. Each financial year, after approval of the annual accounts, the Supervisory Board determines the award of performance shares to the Board of Directors.

Awards of performance shares will vest at the end of a three-year period following the date of award, subject to (i) the achievement of predetermined group financial targets that appropriately reflect the longer term strategy of the Company being profit margin growth; and (ii) the continued service as a member of the Board of Directors with the Company.

Where the at-target level of performance is met, all (100%) of the shares underlying the award will vest and an equivalent number of Company shares will be released to the participant. At threshold level of performance 50% of the performance shares underlying the award will vest. At maximum level of performance 200% of the performance shares underlying the award will vest. Performance below threshold level will result in 0% vesting of the performance shares awarded.

For the three-year performance periods 2018-2020, 2019-2021 and 2020-2022, the "at target (100%)" number of performance shares conditionally awarded aggregated 14,687, 18,410 and 21,075 shares, respectively. The number of at target shares awarded was calculated based on the gross annual base salary divided by the average closing share price for all trading days in the fourth quarter of the year immediately preceding the start of the performance period. The performance shares conditionally awarded will vest in 2021, 2022 and 2023. The number of shares that will actually vest will be based on the above mentioned pre-determined performance conditions.

The number of performance shares which could vest for the three-year performance periods 2018-2020, 2019-2021 and 2020-2022 range between nil (in the case of below threshold performance) to a maximum of 29,376 shares (2018-2020 award) 36,820 (2019-2021 award) and 42,150 (2020-2022 award). The members of the Board of Directors could receive 200% of the “at target” number of performance shares awarded if stretched performance is achieved with respect to both performance measures during each respective performance period.

Following the termination of services by the COO, the outstanding performance shares conditionally awarded have forfeited as per 31 December 2020. For the three-year performance periods 2018-2020, 2019-2021 and 2020-2022, the “at target (100%)” number of performance shares forfeited aggregated 4,672, 5,857 and 6,690 shares, respectively.

The actual levels of the financial performance criteria set are not disclosed since this is considered competitive sensitive information and therefore classified as highly confidential and share price sensitive information. Based on the actual performance realized for the first 2018-2020 performance share award based on EBIT growth, the following table shows the summary of the long-term incentive in the reported financial year:

2018 LTI Performance Target	Vesting levels				Actual performance	2018 LTI number of vested shares			
	Min.	Threshold	Target	Max.		CEO	COO	CFO	Former CEO
<b>Financial</b>									
EBIT Growth (vesting levels as % of at target award)	0%	50%	100%	200%	140,0%				
EBIT Growth (as % of base pay at award)	0,00%	11,25%	22,50%	45,00%	31,5%				
						-	Forfeited	6.541	7.477

The Supervisory Board may in accordance with the Remuneration Policy upwardly or downwardly adjust the number of Performance Shares that may vest by a maximum of 10%. This discretionary performance adjustment may be applied by the Supervisory Board to reflect the overall performance achieved and market developments, and further aligns the interests of the members of the Board of Directors with those of the shareholders. For the 2018-2020 performance award, the Supervisory Board decided to not apply this 10% performance adjustment. As a result, 140% of the at target award resulting in 14,018 shares related to the 2018 performance award will vest on 19 April 2021, subject to continued employment until this date. The vested shares are subject to a two-year lock-up period, except for the shares that may be sold or settled to cover the withholding tax liability upon vesting of the performance shares.

#### Clawback and ultimate remedium

In line with Dutch law and the Remuneration policy, the Short-Term Incentive and Long-Term Incentive components for the member of the Board of Management are subject to clawback provisions and ultimate remedium clauses. During 2020, no circumstances have been identified by the Supervisory Board that result in any adjustments or clawback.

#### Share Option Scheme

Until 2017, the Company granted options under the share option scheme for the members of the Board of Directors. Several option grants made until 2017 are currently still outstanding, partly still subject to vesting and are included in the table below in section ‘Other Remuneration Information’. This scheme provided for grants of non-transferable options to acquire shares in Neways. The options may be exercised three years after grant for a period of two years, which means that their total life is five years. Options may only be exercised by converting them into shares. If an option holder leaves the Group, their option rights lapse.

#### 4. Pensions

The pensions of the members of the Board of Directors are insured with the pension fund of Metalekro. These pensions, including pre-pension rights, are based on the career-average system. The members of the Board of Directors also have supplementary pensions based on the defined contribution system.

#### 5. Other benefits

Other benefits include expense compensation, lease car, use of mobile phone and social security premiums.

#### Loans

At the end of 2020, no loans, advances or guarantees were outstanding to the members of the Board of Directors in accordance with the Remuneration Policy.

#### Remuneration Supervisory Board members

As required by Dutch law, a Remuneration Policy was proposed to the General Meeting of Shareholders on 16 April 2020. The proposed adjustment of the compensation of the Supervisory Board members was withdrawn during the Annual Meeting of Shareholders. This adjustment was considered not be appropriate due to the outbreak of the covid-19 pandemic and the actual compensation in 2020 remained unchanged compared to 2019.

The Supervisory Board members are entitled to a fixed base fee for membership of the Supervisory Board.

As approved by the AGM, the Supervisory Board members are entitled to the following fees:

Annual fee per function in the Supervisory Board	Fixed annual fee
Chair	EUR 40,000
Member	EUR 30,000

The compensation is regularly assessed against Dutch market levels. The benchmark is based on AscX companies listed on Euronext Amsterdam by comparing fixed compensation levels at median level. The Supervisory Board will present any proposed changes to the fees or the compensation elements to the AGM for approval.

Furthermore, each Supervisory Board member is entitled to an annual expense allowance of EUR 2,500.

The total cash remuneration of the members of the Supervisory Board for over the last five reported financial years was as follows:
